FRONT-END AI ENGINEERING CURRICULUM AND INTERNSHIP PLAN

Ship a responsive, mobile-optimized website or ecommerce-style project with clean Tailwind execution.

Site foundations: Use modern frameworks, Tailwind, and template languages to structure pages, sections, and reusable blocks.

Responsive execution: Build layouts that match the design direction, work on mobile, and avoid the common spacing and overflow issues.

Storefront patterns: Practice simple Shopline and Shopify-style pages: product cards, collections, detail sections, trust blocks, and CTAs.

AI implementation QA: Prompt for code, debug with AI, then verify responsiveness, accessibility basics, and pixel-perfect details yourself.
